Description

Grades: 3rd-5th. Want to be a doctor when you grow up? Explore the fascinating world of medicine with real tools doctors use. Learn basic medical knowledge, first aid skills, and the essentials of human anatomy and physiology. Understand the roles and responsibilities of doctors and healthcare professionals. Review the importance of hygiene, nutrition, and exercise as well as the importance of mental health and how to manage emotions. Through interactive lessons, real-life scenarios, and guided practice, know how to respond to medical emergencies, and gain insights into various careers in the medical field. Instructor: Marlia Korchemiluk. 6 classes.

Activity meeting dates

Jan 23, 2025 - Feb 27, 2025 Thu 3:48 PM - 5:30 PM

Instructor

Marlia Korchemiluk
